TRIBUTE
OMAR SHARIF

Special Guest Honor

This III Edition of the DR Global Film Festival wants to honor one of the most representative and bright star of the film scene offering a tribute to the distinguished international actor Omar Sharif.

During his extensive career in large international productions of world impact like *Doctor Zhivago*, *Lawrence of Arabia* (for which he was nominated for an Oscar) *Genghis Khan* or *Funny Girl*, directed by the masters David Lean, Anthony Mann, Henry Levin and William Wyler, as well as his work in other smaller, independent projects like *Monsieur Hibrahim* and the *Flowers of Khoran* (he was granted a Cesar Award,) *The Rainbow Thief* or the most recent, *J'ai Oublié de te Dire*, Omar Sharif has been able to present his powerful presence and charisma to the screen and has also given riveting, nuanced interpretations, always with the distinction of a big star so seldom found among actors.

Omar Sharif is a man of his own, who goes by his particular book and who does unusual things like working in a film (*Disparadme!*) without receiving any compensation just for the fact that it is was shot in his preferred city, Naples, and because the script was about one of his favorite word, gentile.

WILL TAKE PLACE AT THE NATIONAL THEATER ON WEDNESDAY, NOVEMBER 18TH, AT 7:00 PM.
